Claims 1, 3-5, 7-9 and 84 are pending in the application and were examined on their

merits.

The previous rejections under 35 USC 112 First and Second paragraph as well as 35 USC

102(b) have been removed due to the amendments to the claims.

The text of those sections of Title 35, U.S. Code not included in this action can be found

in a previous Office Action.

Claim Rejections - 35 USC § 103

Claims 1, 3-5, 7-9 remain rejected and claim 84 is newly rejected under 35 U.S.C. 103(a)

as being unpatentable over Pletcher, B. (1998) for the reasons set forth in the previous Office

Action.

Applicant's only argument pertaining to this rejection is that Pletcher did not specifically

teach the particulars of the claimed invention. It is true that Pletcher did not specifically teach

certain embodiments of the claim. That is why this rejection is made under 35 USC 103(a),

whereby it would have been obvious to the ordinary artisan at the time the Invention was made to modify the composition of the prior art as keenly pointed out in the previous Office Action.

It is noted that claim 84 is directed toward the similar subject matter of cancelled claim 5 which was already addressed in the previous Office Action. Therefore, claim 84 is rejected for the same reasoning that claim 5 was rejected in the previous Office Action.

From the teachings of the references, it is apparent that one of ordinary skill in the art would have had a reasonable expectation of success in producing the claimed invention.

Therefore, the invention as a whole was *prima facie* obvious to one of ordinary skill in the art at the time the invention was made, as evidenced by the references, especially in the absence of evidence to the contrary.

No Claims are allowed.
